

# DIE STATIONS

RotoMetrics Rotary Die Stations and Processing Modules are each custom designed to meet your specific converting needs, including a wide range of substrates from thin film to thick compounds. What's more, with our exclusive manufacturing processes and stringent quality controls, you're assured of the highest quality, highest performing products available anywhere.

- *High output*
- *Precise cutting accuracy*
- *Consistent quality*
- *Dependable performance*
- *Quick setup*
- *Reduced downtime*
- *Extreme flexibility*

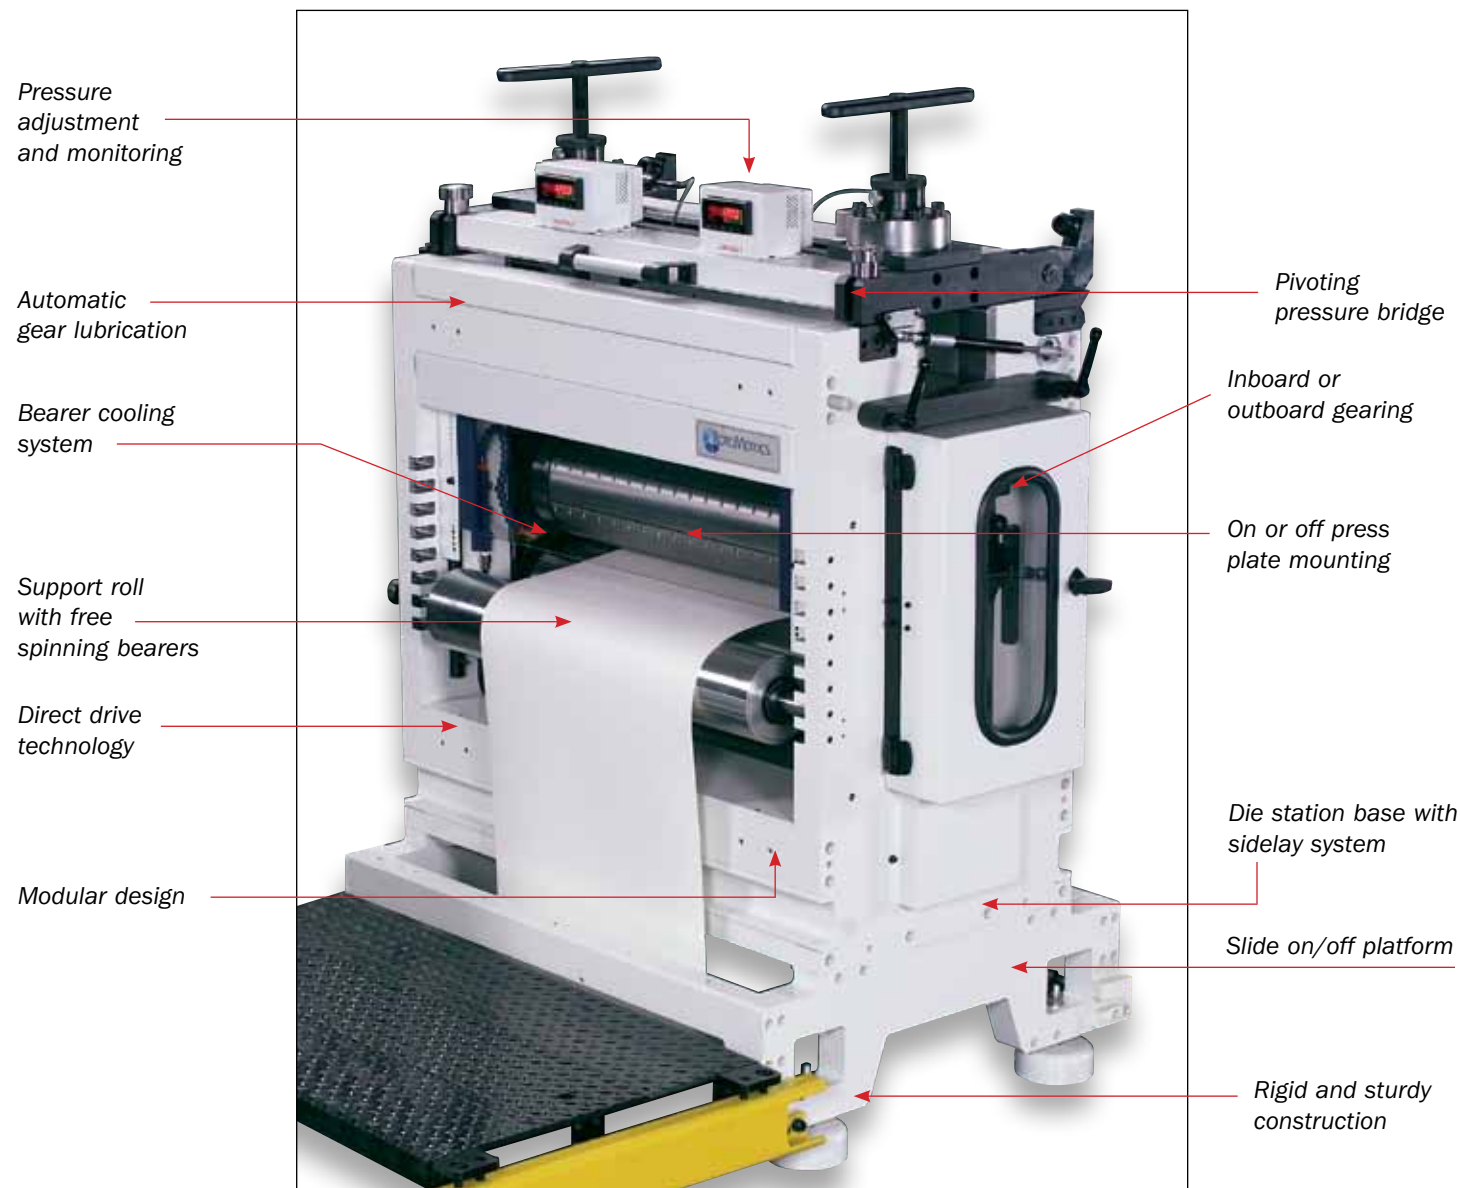

## DIE STATIONS

RotoMetrics Rotary Die Stations and Processing Modules are designed and built to your specific requirements, depending upon your exact needs. So whether your converting solution includes just one die cutting module or an entire converting section with multiple stations...as well as web handling, waste removal, workflow components and more...RotoMetrics delivers performance and quality you can count on, along with quick setup, easy handling, safe operation and a long life.

Die Stations and Processing Modules feature processing/die cutting widths up to 40" (1,000 mm), and operating speeds up to 1,000 fpm (300 m/min). They also provide many other features and benefits, such as...

- Dependable cutting performance with an integrated bearer cooling system
- Off press make ready capabilities that reduce downtime
- Easy access for loading/unloading dies
- Consistent die pressure that decreases downtime, assures reproducible settings and increases die life
- Cassette designs that offer the highest degree of flexibility

### APPLICATIONS:

- Labels
- Folding cartons
- Liquid packaging
- Flexible packaging
- Lottery tickets
- Nonwovens
- Gaskets
- Plus many more specialty applications

### WHAT CUSTOMERS ARE SAYING ABOUT ROTOMETRICS DIE STATIONS:

*"RotoMetrics helped us meet our customer's desire to move from male/female punch dies to rotary processing, and deliver reduced changeovers plus easier machine set ups. Our RotoMetrics Rotary Die Station improves efficiency, lowers maintenance costs and gives much better cutting performance on challenging peel materials. We are extremely happy with the quality of the module and the great partnership we have with our RotoMetrics team."*

**MIKE SEITEL,**  
CEO NORWALT DESIGN INC.

## ABOUT ROTOMETRICS

At RotoMetrics, we convert ideas into reality – giving you performance, reliability and quality that are unrivaled, anywhere in the world. We offer the largest selection of rotary tooling available, with in-house design, testing and production capabilities that are the most advanced in the industry – plus a dedicated Converting Technology Center that continues our historic commitment to innovation. What's more, at RotoMetrics you'll find some of the most experienced people in the business – professionals with the know-how to meet your goals, and exceed your expectations, every step of the way, through any converting project.

A world leader in precision rotary tooling
